LUNGREN AND BARBERVILLE.

Special Correspondence.

Mr. Barber spent several days with his family in Jacksonville last week. Mr. Hancock had charge of the store and post office during his absence.

Mr. Jeff Brown and family have moved back to Barberville, where they own a house. They have been living in Daytona or Seabreeze for some time.

The usual services were held at the Baptist church the second Sunday in January. Preaching again the second Sunday in February.

The man who does not read the newspapers in these days of progress may expect to be little less than a know-nothing.

More cold weather than usual this winter, but no bad freezes. All light, doing little damage.

There is just a little hint that the railway at Alco, opposite Bluffton, now operated by the St. Johns Log and Tie Company will be pushed across to the East Coast.

A man who was selling some kind of medicine spent several days in Barberville last week. He had a tent where he gave a free performance, and at the same time advertised or recommended his medicine, which he left at the store to be sold. This is the way he evaded the law, which requires a heavy license for vendors of nostrums on the streets.

Mr. C. H. Curtis of Bluffton brought Mr. Gould Taylor Butler, manager of the St. Johns Log and Tie Company, over in his conveyance a few days ago, the latter to take the train for St. Augustine, where he spent several days, with his family.

LUNGREN.

Plowing ground for corn planting has already begun in this "neck of the woods". An old timer says that the best time to plant corn is during the February full moon, but what if a freeze or severe frosts were to come afterward? Try some anyway.

The people here are not going wild on polio-ticks, such as we have in this state. Laying plans for planting and truck farming are eliciting more attention. Amen!

About six weeks ago Mr. Albert Turner met with a peculiar and very painful accident. While preparing to kill a hog he accidentally got his feet into the kettle of boiling water, which were so badly scalded that he had to take to his bed at once. He lay a week or longer without being able to get up. He can now walk about on crutches, but has been unable to do any work since the accident. He managed to make a trip to DeLand in his wagon last Saturday with another man, the latter attending to the horse. They returned home next day.

It is reported that the flatwoods from Lungren to Bluffton, three miles or further, have been burned over, the pasture ruined, and that some cattle have already perished for lack of feed. These woods must have been set on fire by lawless fools, who seem to imagine they must do this every year from now on till spring. There may be some work for the sheriff. It happens sometimes that people are caught firing the woods.

Two Mormon elders were here the latter part of December.

Miss Furen, who was absent since the school turned out for the Christmas holidays, returned last Saturday and opened school on Monday. She was kept away by bad health, but appears to be as well as usual now.

Mr. Felt, of Emporia, is still shipping his fine orange crop.

Mr. Peter Stone, Jr., who has been down on the East Coast for some months, has returned home.

Mr. and Mrs. Bradley, of Chicago, who are spending the season at their winter home in Emporia, drove over to Lungren last Monday afternoon.

OBSERVER.

On Tuesday, at 8:15 p.m., in the auditorium, will take place the second event in the Lyceum Course, when the Swiss Bell Ringers and Ascteam Trio will appear.

The membership fees are devoted to maintaining a public library that was started at the same time and has grown to be quite a good sized one, which is greatly patronized by our home people as well as by the tourists.

### Brutally Tortured.

A case came to light that for persistent and unmerciful torture has never been equalled. Joe Golobick of Colusa, Calif., writes: "For 15 years I endured insufferable pain from Rheumatism, and nothing relieved me though I tried everything known. I came across Electric Bitters, and its great medicinal power on earth for that trouble. A few bottles of it completely cured me." Just as good for Liver and Kidney Troubles and general debility.
